**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a request for a Review of Condition to remove Condition Number 1 of an approved Site Development Plan Review (SDR-4107) which stated that the landscape plan shall be revised and approved by the planning and development department prior to the time application is made for a building permit, to reflect one landscaped finger per six parking spaces, one 24-inch box tree per finger with 4-one gallon and 4-five gallon shrubs per finger and a maximum of 12.5% of the total landscaped area of the site as turf on 2.69 acres at 220 North 14th Street.

The removal of Condition Number One (1) from Site Development Plan Review (SDR-4107) would not have a negative effect on the surrounding area. If this condition were enforced it would require the applicant to obtain a new variance for parking, which is not considered a desirable alternative. Development would be in conformance to the approved site and landscape plans. Approval of this request is recommended.

## ANALYSIS

The applicant is requesting to delete condition number one from the original Site Development Plan Review (SDR-4107). This condition required additional landscaping in the parking lot area consisting of landscaped fingers and additional trees. The site is also subject to a parking Variance (VAR-2283). The addition of landscaped fingers to the parking lot would require the removal of parking spaces when the site is already deficient in parking. This would mean that the applicant would be required to obtain a new parking variance as the parking situation would have been made worse. The removal of condition number one from SDR-4107 would not have a negative effect on the surrounding area. Development would be in conformance to the approved site and landscape plans. Approval of this request is recommended.

**Condition #1 from SDR-4107:**

1. The landscape plan shall be revised and approved by the Planning and Development Department prior to the time application is made for a building permit, to reflect one landscaped finger per six parking spaces, one 24 inch box tree per finger with 4 – one gallon and 4- five gallon shrubs per finger and a maximum of 12.5% of the total landscaped area of the site as turf.

**FINDINGS**

The removal of Condition Number 1 of Site Development Plan Review (SDR-4107) will not have a negative effect on the surrounding area. This request is considered appropriate. Approval is recommended.
